ABOUT ME

A passionate and diligent BCA graduate from Atmiya University, currently pursuing a Full Stack Web Development course to enhance technical skills. Interested in creating responsive and user-friendly web applications while continuously learning modern technologies to grow as a professional web developer.

ACADEMIC DETAILS

Bachelor's of Computer Application
Atmiya University
Atmiya BCA College, Surat

Higher Secondary Certificate
JB & Karp vidya Shankul, Surat

Secondary School Certificate
JB & Karp Vidya Shankul, Surat

TECHNICAL SKILLS

TECHNICAL SKILLS

Programming
Java, C, C++

Backend
Spring Boot, Spring MVC, Spring Security,
Hibernate (JPA), JDBC

Web
HTML, CSS, JSP, Servlet

Database
MySQL

Tools
Git, GitHub, Maven, Postman

Concepts
OOP, MVC, REST API, DAO Pattern,
JWT Authentication, Microservice

PROJECTS

Yum Zone – Web Based Food Ordering Application

Description:

Developed a secure Role-Based Access Control (RBAC) system for user authentication and authorization. Implemented multiple roles such as Admin, Manager, and User with role-specific permissions. Added permission checks for secure operations and activity logging to track user actions with timestamps.

Tools & Technologies:

Java, Jsp, Servlet, MySQL, Chatgpt, GitHub

GitHub :- <https://github.com/Ayushdhaduk/Yamzone>

Food Ordering – Using REST API

Description:

Developed RESTful APIs with JWT-based authentication and authorization using Spring Security. Used Hibernate(JPA) for ORM – Based database Mapping and Spring Data JPA for CRUD operations. Followed layered architecture (Controller → Service → Repository) with MySQL for Persistent Storage.

Tools & Technologies:

Java, Spring Boot, Hibernate (JPA), Spring Security, MySQL, Chatgpt, GitHub

GitHub :- <https://github.com/Ayushdhaduk/Foody>

Microservice (Spring Boot + WebClient)

Description:

Designed a 3-entity microservice system (User, Order, Payment) using Spring Boot and JPA. Implemented DTO-based architecture and inter-service communication using WebClient for non-blocking REST calls.

Tools & Technologies:

Java, Spring Boot, Hibernate(JPA), MySQL, WebClient, Postman

GitHub :- <https://github.com/Ayushdhaduk/Microservice>

Gemini Chatbot (Spring Boot + WebClient)

Description:

"Developed an AI-powered chatbot using Spring Boot integrated with Google Gemini API for dynamic responses. Implemented non-blocking communication using WebClient and handled JSON parsing for structured output. Designed RESTful APIs with a scalable architecture to efficiently process user queries."

Tools & Technologies:

Java, Spring Boot, Hibernate(JPA), MySQL, WebClient, Postman

GitHub :- <https://github.com/Ayushdhaduk/Gemini-Chatbot>

SOFT SKILLS

- Good Listener
- Good Work Ethic
- Collaborator
- Good Teammate
- Quick Learner
